Department of Recreation and Parks

Department Description

The Columbus Recreation and Parks Department provides active and passive recreational activities, opportunities, programs and facilities for Columbus citizens in accessible and safe environments. The department also maintains parks, multi-use trails, city trees, golf courses, and recreational facilities, and it promotes the preservation and wise use of the city's natural resources. In addition, the department provides health and social services to older adults throughout eight counties in central Ohio, and it promotes cultural and physical diversity through its activities, the programs offered and in the staff that it hires.

Department Mission

To enrich the lives of our citizens.

Strategic Priorities for 2005

From the Columbus Covenant:

Neighborhoods

 Open two new recreation enters - Dodge Recreation center located in the Franklinton area and Lazelle Woods Community Center in the northcentral area of Columbus, just south of Polaris and between Worthington and Dublin.

Customer Service

 Achieve department customer service objectives in a responsive and responsible manner

Downtown Development

- Provide innovative leadership to foster partnership of enhanced private and public investment downtown
- Identify and pursue partnerships to create additional downtown events and expand participation throughout the year
- Open North Bank Park along the Scioto River adjacent to the Arena District

Peak Performance

Complete city capital improvement projects on time and on budget

- Develop and submit fiscally prudent annual budgets to fund priorities while managing resources responsibly
- Institute performance management for all programs in all departments

Additional Departmental Priorities:

- Continue implementation of the ten year master plan including:
 - Establishing a list/definition of the department's core services
 - o Creating a department-wide participation tracking mechanism
 - Developing customer satisfaction surveys
 - Ongoing communication with staff as well as other internal and external entities about the master plan's progress
 - o Researching various options for a dedicated revenue source
 - Creating and/or continuing partnerships, especially with schools, regarding recreational activities
- Continue the budget team including:
 - Meeting on a quarterly basis (or more as necessary) to discuss concepts on maintaining our core services within budget limitations, and to gather innovative ideas to assist with a more efficient, effective and responsive agency operating under budgetary constraints.

2005 Budget Issues

- Recreational facilities including recreation centers, multi-generational centers, pools, athletic complexes, specialized facilities, golf courses and parks will remain operational in 2005. The hours of operation of various recreation facilities and pools may be adjusted to meet community needs and maximize the use of recreation staff.
- Efforts to rent facilities to interested groups and partnerships with other agencies for sharing of facilities will continue to be pursued to enhance revenue possibilities.
- The 2005 budget includes funding for the operation of the Dodge Recreation Center, located in the Franklinton area. This new multi-generational center is currently under construction and is expected to begin staffing in the fall of 2005. The center will serve as a central gathering place for the local community and will provide a wide range of services including after-school activities, fitness programs for adults and seniors and special summer programs for youth.

- Funding for the operating costs of the Lazelle Woods Community Center is included in the 2005 budget. This center will serve the densely populated north-central area of Columbus, just south of Polaris and between Worthington and Dublin. The center is expected to begin staffing in the fall of 2005. The center will offer a wide range of services for children, adults and seniors, including sports leagues and instruction, arts opportunities, including dance and music, visual and other creative arts classes, open recreation and family activities.
- The 2005 budget includes funding for the operation and maintenance of North Bank Park, a new public park along the Scioto River adjacent to the Arena District. The park consists of walkways and trails along the river, and a park pavilion with boat and water access. The park pavilion will be available for a wide range of uses such as support for various downtown events and programs and for private functions. The project is scheduled for completion in early 2005, with a formal dedication to occur in the spring of 2005. The park was constructed using \$8.7 million in state capital funds, \$4.0 million in city transportation bond funds and \$1.7 million in Recreation and Parks bond funds.
- Financial support to the Franklin Park Conservatory, the Martin Luther King Center community arts complex, and the Mid-Ohio Regional Planning Commission is continued in 2005.
